> CONCERT AND TABLEAUX at the Theatre on Saturday evening last, for the benefit of the Kawaiahao Benevolent Society, drew a full house, and the affair was a decided success throughout. The tableaux were pronounced very fine and the singing good. The net receipts were about \$400.

> A GRAIN OF TRUTH TO A BUSHEL OF LIES .- In the San Francisco Chronicle of Dec. 16, is the result of an interview between a reporter of that journal and " an intelligent merchant of Honolulu," which may be summed up in the words at the head of this paragraph. Somebody has libelled us badly. SUDDEN DEATHS .- Recently there has been two

> deaths of well-known Hawaiians, and both quite sudden. V. F. Kailiuli, a captain in the police force for a number of years and a very estimable man, died almost instantly in the station house on Saturday last. J Kalanikahua, formerly a storekeeper on Fort street, died like one going to sleep, after a hearty dinner on New Year's day. THE ARCTIC DISASTER .- The London Times prints a letter signed " Arctic," and dated Ports-

> mouth, which is presumed to be written by a member of Captain Nares' Polar, expedition. The writer reviews the reports of the recent disaster to the American whaling fleet in Behring's Sea and combats the theory that the seamen who remained on the vessels in the ice must necessarily perish during the winter. CAPTAIN C. C. Moreno.-This gentleman, who as our readers will remember has been indefatigable in

Francisco that he hopes to visit Honolulu shortly, in the interests of the Cable Company. We trust that he will receive from our government and people every facility in forwarding the enterprise which it may be in our power to afford. INVESTIGATING THE QUESTION .- We learn form the Commercial Herald of San Francisco that the Secretary of the Treasury at Washington has sent to the coast an agent to look into the workings of the Hawaiian treaty. The agent was at last accounts busily engaged interviewing the refiners, importers and jobbers, particularly with reference

to the high grades of Island washed sugars, for

which the Collector of San Francisco has recently

charged a duty of five cents a pound. BASE BALL -- Wailuku (which, since the coinci dent decadence of the whaling fleet and Lahaina, claims to be the second city of the Kingdom) has a base ball club, with the somewhat aspiring name of " Excelsior." With a proper recognition latter proceeded all the way to Wailuku to give battle. Two games were played, the first on Fri-day the 29th, in which the Wailuku boys were the winners by one run; and the second on Saturday the 30th, when the Honolulu boys beat their opponents by eighteen runs. The latter, it is said, will nually. come to the city to play the odd game.

BALL ON THURSDAY EVENING .- Under the able management of a committee of citizens, a sutscription ball and supper was given at the Hawaiian Hotel on Thursday evening last, which was a brilliant and highly successful affair. Among the guests we noticed Prince Leleioboku and the Princesses Kamakaeha and Likelike; the American Minister Resident; the British Commissioner, and other foreign representatives; Com. Long and officers of H. B. M. S. Fantome; the Minister of the Interior; Gov. Dominis, &c., &c. The guests were received by Mesdames Makee and McGrew. The toilettes of the ladies were both rich and tasteful—but our Jenkins was not on hand for a description. The music by the military band under Mr. Schmidt was excellent, and the supper, spread by the inimitable von Ochlhaffen, was superb in all its appointments. Much credit is due to all concerned in the management of this very pleasant party.

THEATRE NEXT WEEK .- A performance is arnounced for Tuesday evening next at the Royal Ha-Waiian Theatre, to be given by a Dramatic Company from H. B. M. S. Fantome, for the benefit of the Kawaiahao Benevolent Association.

music is advertised for this evening at Kaumakapili church, under the direction of Prince Leleicboku, the proceeds to be devoted to the aid of the Native Benevolent Society of that church. Tickets \$1 and 50 cents, to be had at A. S. Clegborn & Co.'s,

UNFAIR AS WELL AS UNGENEROUS .- The remarks of the Gazette respecting the action of the late administration in " the steamboat business" may be thus characterized. The fact is generally known that three of the members of the late Cabinet were in favor of accepting the tender offered, and it appears probable that they went out of office on that issue.

STEAMER TIME -The clipper schooner Bonanza, Capt. J. H. Black, which arrived on Saturday evening, made the passage from San Francisco in twelve days. The bark H. W. Almy, was also twelve days on the passage, but the course of the twelve days on the passage, but the course of the the Moody and Sankey meetings to day was about winds, being right aft, made better sailing for a 20,000. At the afternoon sermon to women 6000 square-rigged vessel than for a schooner. The were present. There were lady ushers and choir. Bonanza brought a full cargo of merchandise, and will have dispatch on the return trip.

POLICE COURT .- The new year opens not differently from many others long gone and forgotten, with a few tallies of drunks; some caused perhaps by the effort to turn over a new leaf and turning out miserable failures, others perhaps just going in for a good time, but none of them could complain of inhospitality at the commencement of the new year. and all had accorded to them the use of the cool and sombre little stone chapels at the rear of the station house for appropriate orisons according to each individual persuasion or each individual spirit, or by paying a reasonable "consideration" of from \$5.00 to \$6.00 to the genial landlord "what keeps the accommodations."

FUNNY BLUNDERS .- One does not look for the most polished English in the columns of a newspaper; mistakes will creep in, spite of the greatest care; and yet we must take the liberty of laughing occasionally at the queer blunders of our neighbor of the Gazette. It appears that he was out one evening last week to witness some private theatricals, and became so impressed with the "charming entertainment" that he straightway immortalized it with a first-class "note of the week," wherein we are informed that the performers were amateur ladies and gentlemen. The plain English of which is that the characters of ladies and gentlemen were only assumed for the occasion If this were the fact, it relieves one somewhat of surprise in reading that Portia "departed" with three lovers-a proceeding which would otherwise be quite unaccountable, not to say indefensible. Brassey, of the R. Y. S., and H. B. M. S. Fantome,

SCHOOL ENTERTAINMENT AT WAILURU .- An attentive correspondent at East Mani writes us that at the annual entertainment of the English School in the thriving town of Wailuku, which took place on the 22 December, a large audience was present, and Emma Kaleleonalani, and was observed by a the exercises went off extremely well. The pernumerous gathering of her retainers and friends formances of the children reflected much praise on at the residence, corner of Nauanu and Beretania the teachers, Mr. W. A. Swap, master, and Miss C. every one in the face. We state deliberately that streets. We are pleased to note that Her Majesty streets. We are pleased to note that Her Majesty Thompson, mistress, the boys giving good evidence of careful, conscientious training. The proceedings were enlivened by some clever tricks of legerdemain kindly performed by a friend, and which created much amusement. A few part songs were sweetly sung by the girls, accompanied on the harmonium by the Rev. J. Bridger. The distribution of some be no music by the band at Emma Square, until useful prizes to the children, who had earned them during the year, brought the pleasant evening to

CANVASSING THE VOTE.-The second Monday in February is the day fixed by law on which the President of the Senate will open the certificates and read the returns which have been made out and SAMPLE ROOM .- We beg to call attention to the forwarded to Washington. The latest phase of the election shows that Haves will have 185 electoral votes and Tilden 184. Should no question be raised beyond this point, Hayes will be the next President But in view of alleged frauds in South Carolina, Florida, Louisiana and Oregon, there is every probability that Congress will go behind the returns and enquire into the elections in those states. Whicha handsome jewel of office to their W. M. W. H. ever side may gain the government in this contest, Cornwell, on the occasion of the expiration of his it must be done fairly. Neither party can afford to take the control of public affairs on any other terms, for it would prove its ruin as a political organization. Nor will there be any disturbance, much less a civil war. The temper of the American people will not allow it, however partisan newspapers may bluster.

Benefits of the Treaty.

It is stated that one of the results of the Hawai ian Treaty has been a great appreciation of value on the Islands, and of a large increase of trade between the Government of Hawaii and the United States: The area of land for the production of sugar and rice is being extended, and it is expected that the next sugar crop will exceed the previous yield by at least twenty-five per cent. A still larger increase in the rice crop will be obtained, and the planters are confident of releasing their property from debt in a year or two, and placing hemselves upon a solid commercial foundation Hitherto a large portion of the crops has been sent to the Australian colonies, where the duties were less than in American ports, but since the duties have been entirely removed here the whole yield of the Islands will find a market on the Pacific Coast. The exports of lumber, hardware, flour, etc., from San Francisco to Honolulu have nearly trebled in the last month in consequence of the extension of plantations, which necessitates the building of storehouses, crushing mills, etc., the purchase of new machinery and other articles that have in times past been obtained from England and Germany. In view of this state of affairs the Hawaiian Government has appropriated a subsidy for carrying the foreign mails, and negotiations are pending that will probably result in the establishment of a direct line of steamers, between San Francisco and Honolulu, by the Pacific Mail Company. It is expected also that such modifications of the Australian mail contract will be made as to procuring the passage by Congress of the Transrequire but three steamers on that line instead of Pacific Cable Bill, informs us by letter from San five, and reduce the time of passage. This will allow the placing of two steamers between San Francisco and Honolulu, running once a month, between the Australian steamers that will continue to touch at the Sandwich Islands .- San Jose Mer-

It is asserted that a full impression of a human foot has been found in sandstone in Connecticut, side by side with the pre-historic bird tracks. The genuineness of the track is doubted, as the track appears to be too perfect, and is therefore, attributed to modern manufacture. Per contra, a Spanish Mexican coin, dated 1710, is said to have been found imbedded in a solid rock taken from the bed of the Rio Grands river. The stone is described as very hard, and almost transparent.

The salmon product of the Columbia river, Oregon, including not only the fish shipped, but also those consumed by the fishermen themselves, will this year reach the immense total of 40,000,000 pounds. The salmon are either salted and packed in barrels or canned fresh. In the latter form it is in great demand in all parts of the world, and hunof its title, this club challenged the hitherto invinci-ble "Athletes" of Honolulu, and accordingly the dozen cans, which latter weigh a pound and a quarter apiece, are annually put up. Of these England alone takes 165,060; New Zealand, 2,400; South America, 1500; Australia, 14,000; New York and the Atlantic coast, 58,000. The value of the canned salmon of the Columbia river is esteemed at \$8,000,000 an-

The last London story is that a scheme is on foot for reviving the Byzantine Empire under the ruler-ship of his Royal Higness the Duke of Edinburg. A jeweller of the Rue St. Martin, in Paris, with prince. ly patronage to Russia, has gone to St. Petersburg to secure the order for the growns regnant and matrimonial of the future head of the Lower Empire and his imperial spouse the Grand Duchess Marie. Mr. Mundella, M. P., in a speech the other day, said something about the desirability of Byzantium being restored and handed over to "onr sailor Prince." A German king has been found to suit at Athens. Why should not an English one of German blood do at Constantinople? England has princes and to spare for exportation to foreign States. If the realization of this scheme were to relieve the Consolidated Fund of the pension of the Duke and Duchess of Edinburg, it would be a slender consolation to the Seek out the secret of their organization, ensemble of the merchants trading with China. PER "BONANZA" DECEMBER 30.

NEW YORK, Dec. 17 .- The Heruld's Taliahassee Concert this Evening .-- A concert of vocal special says: It is reported that the Senate Committee is preparing to meet in Jackson the scene of intimidation and violence late election, and is discussing the question taking a file of soldiers along for protection, it being stated by the local politicians that it would not be safe to trust themselves without such pro-

Representative Stephens of Georgia, over his signature, says the statement that he is advising the friendly acceptance by the South of the inauguration of Hayes is utterly unfounded.

Springfield, Osio, Dec. 16.—Governor Hayes passed here yesterday, and made a short speech touching the political crisis. Regarding the present condition of affairs he said: A paragraph in an Eastern paper expressed the sentiment which may well be adopted by good honest men of whatever political party. I have faith in the saving common sense of the people. The all-important interests of labor, trade, education and religion depends upon the preservation of peace, and any depend upon the preservation of peace, and any disturbances of that peace endangers those in-Chicago, Dec. 17 .- The aggregate attendance at

NEW ORLEANS, Dec. 17 -- Several merchants from the laterior of Mexico arrived here yesterday and they confirm the news of the capture of Lerdo the death of Escobeda, and the capture of the city of Mexico by General Diaz. Iglesias, from Leon, ordered Diaz to hold the city of Mexico, and proclaim the Presidency of Iglesias, which Diaz de-clined to do, unless he could name four members of the Cabinet. This was refused by Igiesias, when Diaz proclaimed himself provisional Presi dent, and the revolution now continues between these rival pretenders, who are now preparing for a new struggle. General Revuellas still bolds Matamoras, and refuses all communication with the revolutionary chiefs until some one of them can show proper authority from Iglesias to demand the place, which none of them has, and he posit ively refuses any communication with the bandit

NEW YORK, Dec. 8-Morning .- A Times' edito rial rebuke was yesterday administered to the little squads of home-guard Democrats led by Hewitt and Fernando Wood, and urged on by the New York World, which has been calling for the impeachment of the President and making silly threats about war. Hewitt's proposition for the Committee of Inquiry looking to impeachment was voted down in the Democratic caucus, and the speech by Wood was denounced by Ben. Hill. That gentleman intimated that it was only men who were invincible in peace and invisible in war who talked about bloodshed, and said plainly that if this class had not had enough of it, the South if this class had not had enough of it, the had. John Young Brown also declared if there was to be war on the Presidential question, Northern Democrats must make it. This display of good sense and genuine patriotism on the part of the men who have heretofore been regarded as among the more violent, is a hopeful sign and one

The South has had all the war it wants, and its journals says to frankly. Thus the Macon Telegraph and Messenger remarks: "Whenever and wherever the slogan of war is raised, let the emphatic response of the entire South be. 'Get thee behind me. Satan!' Our people have already resorted to this sort of 'arbitrament,' and were so terribly in carnest that they never succumbed until nearly every family mourned the loss of a gallant son brother or father: a debt of two billions of dellars had been repudlated ; four millions of slaves, our rightful property, emancipated; towns and cities laid waste, and gaunt famine and want stared of arms, to seat Mr. Tilden, or engage in another attempt at revolution, is wholly and absolutely false. The very men most opposed to such folly are the battle-scarred heroes of the lost cause. They have felt the shock of battle and realized the miseries of war, and therefore shrink aghast at a renewal of the dreadful spectacle. No. Hav-ing taken anew the oath of allegiance and plighted our faith to conserve the public peace, we do not intend to be seduced into rebellion upon any na

APPECTING INCIDENT AT THE MOODY AND SANKEY MEETINGS.—CHICAGO, Dec. 16th.—Another affecting scene occured in the Moody meetings to-day. A dissipated outcast came to seek salvation. Upon announcing his name, it was discovered that he was the man about whom some broken bearted parents living in Scotland bad written to Mr. Moody early in this series of meetings, asking him if he could possibly do so, to discover his whereabouts and urge him to return to his home. At the noon meeting to-day be gave his experience, which brought tears to the eyes of thousands who heard it. Next Sunday closes the regular services, but the Tabernacle will be turned into a great inquiry

LONDON, Dec. 18.—Morning.—A Vienna dispatch to the Daily News states that the Grand Visier, Madhat Pasha and Safvet Pasha have resolved to reject any proposition looking to the disarmament of Mohammedans, foreign occupation or the control of the administration by an internationa Commission, and several other measures which are supposed to form the essential points of the program-me which will presented to the Porte. LONDON, Dec. 17.—The Vienna correspondent of the Times says: The Russian General Nikitine has

The soldiers belonging to the active army of Servia, who are estimated to number 66,000, have been ordered to rejoin their colors by the 22d of December. The Times dispatch from Berlin states that General Nikatine goes to inspect the Servain army. Russian journals say that only 8000 Russian volunteers remain in Servia. Nearly all the South Russian telegraphs are so damaged by frost as to be

started for Servia to take command of the Russian troops there and act as Russian Plenipotentiary.

LONDON, Dec. 17.—A telegram from Pesth says: It is asserted positively that the Porte will absolute-ly refuse to cede any territory to Montenegro or LONDON, Dec. 18 .- Morning .- A Calcutta telegram to the Times says that accounts of the famine received from Madras are worse than those from Bombay. Large numbers of starving people are flocking into Madras. The first death from starvation has occurred there. Much distress and disease exists in the country districts.

The absence of the Porte's representatives from

the preliminary conference creates an unfavorable

impression. The fact that Russia is permitted to

sit in judgment on the question at issue is com-mented on in the Turkish circles. The Sultan and Ministers yesterday witnessed experiments with torpedoes and the heavy Armstrong guns of the fronciad fleet, The correspondent of the Daily News at Constantinople telegraphs the programme of the de-mands for Bulgaria, recently submitted to Earl Salesbury, by prominet Bulgarians. The pro-gramme includes a general amnesty for political offenders, self-government, complete and religious

equality, decrease of taxation, temporary foreign

occupation, to disarm Mahometans, and a guarantee of reforms by the Powers. Berlin, Dec. 16 .- News from the Conference in high political quarters, maintains that a Russian-Turkish war is inevitable. Russia has not completed her preparations and will endeover to protect the Conference until her Southern army is concentrated. Advices from St. Petersburg say that Russia is unalterably determined to meet immediately the grievances which have been already too long inlulged in, but will not enter the field until she feels able to make an irresistible assault.

The Vienna correspondent of the Times states that a confirmation comes from Constantinople that quite an unexpected and marked approach has been effected between the views of Russia and England. This seems due above all, to the assurances given by General Ignatieff concerning the aims of the Russian policy. In the face of this it appears that Turkey has felt it necessary to make known its views. Several Vienna papers publish a sort of Communique derived from sources which they allege to be Turkish. Said Communique declares that the Porte will adhere to the Treaty of Paris and consider every project of occupation as casus belli.

THE CHINESE INVASION .- In an appealing leader on the resistance to the landing of the Chinese at Trinity Bay the Cooklown Herald observes:—We Europeans in the North are in a cruel position. We are threatened with a danger not the less real because there seems to be no means of gappling with it. We are being beaten by an enemy we cannot touch—we are fighting with our hands tied. We cannot, as they are doing in Trinity Bay, join in resisting the law, for if the law is overthrown, all the horrors of mob rule threaten our very exis-tence as a community. We can only appeal for help to our fellow-Europeans of Australia, sad ask them to join us in petitioning the Home Gov-ernment not to sacrifice Australia to the convenience of the merchants trading with China.
